Dear Parents,

An election of utmost importance, the BMC Elections, take place on the 21st of February this year. One of our basic fundamental rights as citizens, I am writing this letter to urge and insist on casting your valuable votes towards the right candidate.

As residents of our constituency, ^{you} are aware of all the shortcomings and issues that trouble it. Hence, there should be a clear opinion of who ^{is} the candidate and party will be the best for our area. Amongst the varied issues, lots of political parties have earnestly promised to resolve them. As educated citizens of this prestigious democracy, I request you to cast the votes at your own discretion, in hopes of a better future and outlook for Mumbai. A right political future could mean the best of futures for Mumbai. Whereas a wrong election would ~~mean~~ mean the continued ~~presence~~ persistence of issues prevalent in today's Mumbai. Times, your very vote could prove essential to an amazing future for Mumbai.

In conclusion, I would like to repeat on the urgency your votes bear. As residents and citizens of a progressing country, we must ensure that we play our roles and contribute our best to the progress.

Yours affectionately,
Anuj.

13th February 2017.

Dear Parents,

As you'll know that our country, India is a democratic country and as citizens it is our birth right to select the candidate who we would want to rule us. A wrong candidate would lead to the downfall of our country while a right would lead to the progress of our country.

The BMC elections will be held on the 21st of February where it is the people who will be deciding the future of our country. Our duties as citizens are very few and voting is one of them. So if we can't fulfill our duties, we are not active citizens. Not only the future of the country but even our future depends on these elections so we should not depend on others choice and vote ourselves. If all of us wake up and cooperate with the government we, all Indians can take India ahead of every country. So now it's your choice, to vote and help the country or to sit back and curse it.

So let's all come together and vote for the betterment of our country. And it's your duty as a parent to teach your child good values.

Yours thankfully,
Anosh Hiloo.

I feel good to know that our kids are aware of their duties and are encouraging us parents to go out and vote. I shall definitely go out and vote.

In the world of television awareness our children compel us to abide by our duties, the fundamental one being to vote. I would definitely be casting my vote.
